A Comprehensive Bibliography of Documents Specifically Using the ProQOL Measure

7 January 2016

ProQOL.org

This document is non-copyrighted material. It may be used freely without author permission.

NOTE: This document is thorough and comprehensive but we do not believe it to be exhaustive. As best as possible information is provided for location of the document. Not all documents are equally identified but in every case the information provided was verified at the time of publication. The formatting is generally in APA Style but due to the complexity of the document it is not truly APA style nor is it completely consistent.
